

Model Solvay Conference 2023

Rules and Guidelines

Fourth Edition of **Model Solvay Conference 2023** is going to be conducted on **7th and 8th April 2023**.

Following are the general guidelines and rules to be followed by the participant for the main conference:

- **Team:** A maximum of a 3-member team can be formed; a mixture consisting of undergrads and post-grads is also allowed. There is no restriction on no. of teams from a particular institute.
- **Registration:** Registration can be done through google form and is completely **free**.
- **Submission:** Only **1 (PDF File) per team** can be submitted through a google form and is considered as a final submission. Multiple Submissions may lead to **disqualification**.
- Participants are encouraged to explore all the relevant literature. Add all references used at the end of your submission document.
- Last Date for submission of your solution through google form is **4th April 2023 by 23:59**. The submission will act as your registration for the **Prelims**. Kindly note that submissions only through **Model Solvay Website** will be considered.
- The results of the Prelims will be declared on **5th April**.
- The Top 6 teams of the Prelims will qualify for the Finals and the main conference. Finalists have to present their work in front of a jury and the general audience. Further details about the same will be communicated to selected teams accordingly.
- You are not supposed to solve all the problems, so do as much as you can and explore freely.
- For any queries feel free to contact at modelsolvay@gmail.com
